TO NEW SUBSCRIBERS

SCOTT & CO New York, continue to publish the following leading British Periodicals, viz

1
LONDON QUARTERLY (Conservative)
2
EDINBURGH REVIEW (Whig)
3
NORTH BRITISH REVIEW (Free Church)
4
WESTMINSTER REVIEW (Liberal)
5
BLACKWOODS EDINBURGH MAGAZINE (Tory)

It gives me pleasure to announce that, notwithstanding the political excitement and the consequent pressure of the times, the circulation of my Periodicals has not only been fully maintained, but has largely increased during the past year. This result I attribute to the fact that, while the Periodicals have been faithful exponents of the views of the Conservative, Liberal and Religious parties of Great Britain, they have carefully abstained from the violence of party politics, and have devoted their pages mainly to the literature of the day, and to the consideration of the great questions of Science, Literature and Art, which are constantly arising for discussion. In this course I shall persevere, believing that the Periodicals will thus be rendered more valuable and interesting to every intelligent reader, and will better subserve the objects for which they were established, viz: the promotion of sound learning and religion, and the diffusion of a healthful literature throughout the country.

EARLY COPIES.

Advance sheets from the British Publishers of the current issues of the Periodicals will be received as early as they can be republished in the United States, thus affording to subscribers the latest results of the labors of the ablest writers in the Religious and Literary world.

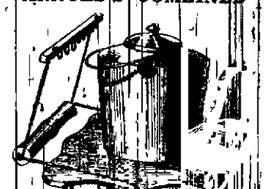
ARNOLD'S COMBINED



FOOT-STOVE, LANTERN,

—AND—

NURSE-LAMP.

ALBERT NOYES having purchased the exclusive right for manufacturing and vending in Hancock county, the above valuable inventions is prepared to offer them to the public.

As a FOOT STOVE it answers an excellent purpose as it can be sufficiently heated in less than one minute to warm and dry the feet on the coldest winter weather, and will be found to be an indispensable article in traveling. It is heated by an old alcohol or fluid lamp the flame of which is protected from every external object.

As a LANTERN it answers all the general purposes and is less likely to be overset, or get broken, and can be used as a house lamp with equal advantage.

As a NURSE-LAMP, and in cases of sickness, it is of great advantage in keeping drinks or medicines warm beside giving the light desired, and for cooking in small quantities. For making gruel it will be found very convenient, as a quart of water can be boiled in fifteen minutes, and a pint in ten from the same length of time.

In fact, the various purposes to which this neat apparatus can be put may be readily conceived by every one. No further description is required, as no one can misunderstand its general utility. To say any thing more respecting its adaptability to all under purposes would just be telling what our readers can all see at once for themselves.

BOSTON

IMPORTANT INFORMATION TO INVENTORS—The subscriber, late Agent of the U S Patent Office under the Act of 1837) determined to present advantages in applying for patents superior to those offered inventors by others, has made arrangements whereby (in addition to the prepared and ample facilities) THIRTY DOLLARS (inserted *twenty as paid half by others*) will be remitted by him in case of failure to obtain a patent and the withdrawal through him within thirty days after the rejection

This Agency is for only the largest in New England but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by, if not immeasurably superior to any which can be offered them elsewhere. The testimonials below given prove that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber and its SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY he would add that he has abundant reason to believe and can prove, that at no other office of the kind are the charges for professional services so moderate—The immense practice of the subscriber during twenty years past, has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works are full accounts of patents granted in the United States and Europe render him able beyond question to offer superior facilities for obtaining patents.

Caveats Specifications Assignments, and all Papers and Drawings necessary to the procural of patents in this and foreign countries prepared and advice rendered on legal and scientific matters respecting inventions and infringement of patents. All necessary journey to Washington to procure a patent and the usual great delay there are here saved inventor.

TESTIMONIALS

During the time I acted as Chief Clerk in the office of Commissioner of Patents R H EDDY Esq of Boston did business in the Patent Office as Solicitor in procuring Patents. He was prompt and faithful in all his business relations with the office, and conducted with much ability and success. I regard Mr Eddy as one of the best practitioners and most reliable agents in this line of business before the United States and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy and in every way reliable. Inventors in the New England States would do well to call on Mr Eddy before they apply elsewhere, as I feel confident he can obtain for them as early and favorable a decision as any other agency in the country.

SIMEON BURKE
Late Commissioner of Patents.

[From the present Commissioner]

Washington, August 17, 1855—During the time I have held the office of Commissioner of Patents R H Eddy Esq of Boston has been frequently before the office in the prosecution of his business, and I have always found him perfectly reliable in all his dealings with the office, and well versed in the various principles and rules governing the granting of patents. I therefore take pleasure in recommending him to inventors as a gentleman of integrity and ability in his profession.

Republican Nominations.

FOR MAYOR,

HOLLIS BOWMAN.

FOR POLICE JUDGE,

ALPHEUS LYON.

Republican Caucuses.

The Republicans of Bangor are requested to meet at the usual places of voting in their respective Wards on SATURDAY evening, March 8th, to nominate candidates for Ward Officers.

Per order Republican City Committee.

March 4, 1856

Republican City Caucus.

The Republicans of Bangor, met in the City Hall, on Thursday evening, March 6th, at 7 o'clock, agreeably to the call of the City Committee, to nominate candidates for Mayor and for Police Judge.

The meeting was called to order by William Boyd, Esq., Chairman of the City Committee.

Hon. E. L. Hamlin was chosen Chairman, and O. H. Ingalls, Secretary.

The following letter from Mayor Hayward was read by William Boyd, Esq.:

To William Boyd, Esq., Chairman of the Republican City Committee.

DEAR SIR: I have reason to believe that some of my personal friends will desire to use my name at the Caucus to be held this evening, as a candidate for re-election.

Allow me to say through you, to any such, that while I fully appreciate their favorable sentiments, I wish to withdraw my name entirely as a candidate.

The present is no time to urge personal preferences; but it demands of us united effort that those principles may triumph which will advance the cause of human freedom and the prosperity of the Republic.

Very respectfully, yours, &c.

J. T. K. HAYWARD.

The meeting then proceeded to ballot for a candidate for Mayor, with the following result:

Whole number of votes 503, of which Hollis Bowman had 503, and was declared chosen.

For candidate for Police Judge, the whole number of ballots, 535, of which Alpheus Lyon had 340, and was declared chosen.

On motion of Geo. A. Thatcher, Esq., it was *Voted*, That Hollis Bowman and Alpheus Lyon, Esqs., be unanimously declared the nominees of this meeting.

After which Mr. Bowman appeared and accepted the nomination.

Remarks were made by Messrs. Bartlett, Prentiss, and other gentlemen, when the meeting adjourned.

E. L. HAMLIN, Chairman.

O. H. INGALLS, Sec'y.

The Republican Caucus last evening was one of the largest and most enthusiastic political meetings ever held in this city. The official proceedings are published above, and will show that the Republicans are awake to the importance of the municipal election, and prepared to take the field with a confidence of victory.

Hollis Bowman, Esq. the candidate so unanimously nominated for Mayor, is a gentleman every way worthy of the position, and against whom even his political opponents have nothing to say. He is thoroughly acquainted with the affairs of the city, and will vigilantly guard its interests. No more acceptable candidate could be presented. There is a general confidence in his triumphant election.

The nomination for Police Judge fell upon the late Municipal Judge, Hon. Alpheus Lyon. Mr Lyon has shown himself an attentive and competent magistrate, and has given general satisfaction. Although other gentlemen were voted for at the caucus, we have no doubt he will be unanimously and cheerfully voted for by the Republican party, and elected.

The hunker politicians who engineered the recent "no party" "Citizen's Caucus," having signally failed in that movement, and been obliged to withdraw their candidate for Mayor, have now called another Citizen's Caucus, of all opposed to the present City Government, to be held this evening. The attempt to get up an issue on this ground, whereby to defeat the Republicans is a desperate one, and will fail as utterly as did their first movement. The Republicans stand on their own ground, and make their nominations entirely independent of the present city government.

"Orono Ranch." A Journal correspondent claims an astonishing victory for the hunkers in Orono, because they have elected their town officers by about 80 majority over the Republican ticket. If they have but 80 majority, it shows a *Republican net gain of 53 votes*; and that the hunkers have only by great efforts saved themselves from utter defeat. In September the majority against the Republicans was 143.

California Senator.—There is little probability that a Senator to succeed Mr. Gwin, will be chosen by the present legislature of this State. In the Senate an indefinite postponement was carried by a vote of 17 to 16.

F. T. Lally of Farmingdale, and Andrew Masters of Hallowell have been chosen in Kennebec as delegates to the Cincinnati Convention. They are fierce men.

There was no good cause for the alarm of fire last evening, unless it proceeded from the blazing up of some of the ruins of the fire of Wednesday night.

A Cold Lift for the Allies.—The Portland Advertiser says "the city election of Bath must be about as discouraging to the anti-Republicans of all stripes, as anything on record. They made, we understand, the most earnest efforts to rally their entire strength—and it is reported that they borrowed a Republican candidate in order to assume an air of decency.—But it was no go—they were routed horse, foot, dragoons and everything else.

The American party of New Haven have repudiated the nomination of Fillmore.

Maine—Republican elections in this State, thus far, have resulted gratifyingly for the Republican cause. The [illegible] we have heard of [illegible] revolutionized Bethel, have almost uniformly [illegible] vote of last fall. This [illegible] shows a real and [illegible] of constitutional free [illegible] rious result in the next campaign. The selfish and unpatriotic alliance [illegible] possession of the State, which is already shaking to its centre, [illegible] and distrust of the leaders towards each other, the irreconcilable character of the principles professed upon either side, [illegible] which is felt by the [illegible] who furnishing for the alliance, see with [illegible] more than half the [illegible] significant minority. The Republicans have only to stand firmly by their arms, as they are now doing, and the [illegible] office-seeking dynasty which is ready to [illegible] all the influence of Maine in favor of [illegible] and which refuses to speak for the free [illegible] government of Kansas, will be summarily [illegible] throwns.

A correspondent of the [illegible] us from Lincoln, in this county, that the Republican ticket was elected straight through [illegible] on Monday, and that the victory was overwhelming: Moderator, Hon. W. R. Hersey; Clerk, A. W. Hastings, Esq.; Selectmen, Hayward, Samuel Hall; Treasurer, Wm. T. Roberts. The vote on School committee [illegible] for Dr. Thomas, Lindsey and the young John Burnham.

We stated yesterday that the Republicans had elected their town officers in Auburn, Bethel, Gorham, Richmond, Saco, &c. We see by the Advertiser, that in Auburn the Republicans have from 50 to 60 majority.—Last fall they had but *two* majority. In Saco they have now 200 majority.—last fall 106.

The Republicans triumphed gloriously in Westbrook, carrying the election handsomely, after the hunkers had made a desperate effort and done their utmost. Seven hundred and six votes were polled, and the Republicans had as large a majority as last fall.

In Bath, from which we have a partial despatch on Monday, it seems that Mr. Rice, the Republican and American candidate had 837 votes, and Charles Davenport, an opposition "citizens" candidate, although a Republican, himself, nominated by the hunkers, received but 782. Israel Putnam, straight whig candidate 19. All but two of the Council members are Republicans.

In South Paris, the Republican ticket was elected by 100 majority.

In Milton, the Republican ticket was elected on Monday, by an increased majority over last fall.

In Gardiner, Noah Woods, Esq., Republican, has been re-elected Mayor by more than 200 majority. Last fall we had but 80 majority.

In Hallowell, Alex. Howard, Republican, is elected Mayor, and S. K. Gilman, Esq., Police Judge. Last fall a majority against us.

In Skowhegan, the Republicans triumphed. In September the town was against us. Our friends promise 75 majority next fall.

Sandy, all Republicans.

Republicans elected in Bowdoinham, Manchester and Wayne.

Republicans elected in Vienna, Rome, Mercer, Chesterville and Farmington (304 maj.)

Readfield, anti-Republican by two majority. Last fall against us by 2 majority. To show their decency, the hunkers voted for Gov. Morrill for Poundkeeper.

Bridgton, Harrison, Mexico and Waterford, anti-Republican, as usual.

In Searsport, the Republican ticket is elected by 110 majority.

Northport, Republicans elected by 40 maj. In September, 18 against us.

Jackson, all Republicans.

Brooks, anti-Republican Clerk and Selectmen. Not a party contest.

Prospect, all Republicans except the Moderator.

In Rockland there was no choice for Mayor. We have not seen the vote.

In Eden, anti-Republicans elected.

The following officers were elected in Frankfort on Monday: Moderator, Adonis Treat; Town Clerk, Daniel Tobey; Selectmen, Elisha Chick, Henry S. Black, M. D. Littlefield; Town Agent, Elisha Chick; Treasurer and Collector, James Haley; School Committee, Rev. Wellington Newell and S. C. Hayes and Mr. B. P. Hall; Auditors, Lyman Worwell, Reuben A. Rich, Asahma Treat.

This is supposed to be a hunker ticket.

The hunkers have made out to save themselves in Buckfield, one of the ancient strongholds of the sham democracy, and which gave them a large majority last fall.

Intemperance and Crime.—The Tribune says the statement of the Grand Jury of New York city, as to the great prevalence of intemperate habits among those committed to jail on criminal charges during the year, there have been 86 out of the 32,704 intemperate drinkers out of 35,264 persons committed, affords a striking proof of the intimate connection that exists between crime and the grog shops, while the numbers of innocent persons whose wholly uninstructed, or whose acquirements were decidedly below the standard of our city common school education being 32,500—without reckoning 2142 whose degree of education was not ascertained—shows that ignorance goes hand in hand with drunkenness in the promotion of crime.

Methodist Mission at Buenos Ayres.—This mission, established but a few years since, has become self-supporting station, and has contributed during the past year, $1,300 to the Missionary Society of the M. E. Church. Other places in South America are now asking the Missionary Society to send them missionaries, pledging them a support free of all demands on the funds of the Society.

American College at Rome.—An effort is being made to raise one hundred thousand dollars, by the Catholics in the United States, to establish an American College in Rome. The specific design of this movement is "to make priests for America."

Decline of the Native Population in the Sandwich Islands.—Dr. W. Hildebrand, in a letter to the Royal Agricultural Society Honolulu, gives the following account of the decline of the Hawaiian nation:

"The Hawaiian nation, which 70 years ago was estimated variously at from 200,000 to 400,000 souls, now only counts 72,000, a decrease within the period of at least two thirds. Vast tracts of land do not harbor a human soul; fertile valleys lands, open under the cultivation, are left to the rule of grass and weeds. The island of Kauai, remarkable for the productiveness of its soil and capable to sustain a population of at least 100,000, contains only 6000.

The Fugitive Slaves in Cincinnati were, under the decision of Judge Leavitt, delivered over to the U. S. Marshal and escorted by two hundred specials across the river to the land of bondage. The trial of these unfortunates has revealed another feature of the infamous fugitive slave law. The government at Washington, it appears, pays cheerfully the fees of all witnesses who testify for the claimant, but refuses to pay the witnesses who are summoned to testify in behalf of the alleged slave! This is in keeping with that law which gives the Commissioner ten dollars, if he sends a man back to slavery, and only five if he decides that he shall go free.

Why? What? and Wherefore?—OR, A FEW FACTS FOR THE INVALID. Have our readers ever heard of *Professor Holloway?* Undoubtedly they have, just as they have heard of *Humboldt, Arago, Oersted, Silliman, Agassiz*, and other notable men of learning. But have they ever asked themselves *who* and *what* he is? If they have no definite information on the matter, we will proceed to enlighten them. The Professor is an English physician, a native of that country which produced Hunter, Harvey, Abernethy and other *illuminati* of medical science. So much for the *who*; and now for the *what*. He is to other physicians what *Gay, Webster*, and *Calhoun* were to other statesmen; what *Washington*—revered name!—was to patriots and generals; what *Shakspeare* was to dramatists, and *Irving* and *Chalmers* to preachers, viz. the greatest of his age and profession. His reputation has penetrated the encrustations of prejudice, surmounted the barriers of malice, and he avowedly stands alone, the MEDICAL COLOSSUS of the world. So much for the *what*.

Wherefore do we speak of him here? If, when our fellow countrymen were dying by thousands, of yellow fever, at Norfolk and Portsmouth, we had heard of a remedy which would arrest the progress of the disease, and stay the footsteps of the spoiler, and we had neglected to communicate it, what would have been our case? Truly, a very summary punishment by Lynch law. For if there be any duty more imperative than another, it is this—"to visit the sick in their affliction," and to use every means for their restoration to health.—This is why we speak of *Professor Holloway*. This is our answer to the *wherefore*.

Years ago, when the Professor was a much younger man than he is at present, his attention was directed to the great disproportion between the cures performed by the physicians, and those which they undertook to perform. He observed that not once in a score of cases were they successful. It seemed to him, either that medicine was not worthy the name of a science, that it was merely a thing of chance, and therefore a positive injury to mankind, or that the Physicians were ignorant of the true healing art. Having embarked on the study of human physiology, and understanding the pathology of diseases, he alighted upon the true reason of want of success, and made that discovery which will immortalize his name. To cure a disease, doctors treated it locally, topically.—Was it the kidneys that were deranged? Or the liver? Or the stomach? Or the lungs? Straitway they proceeded to prescribe for kidneys, liver, lungs, or stomach, not knowing that the evil was contained in the blood, which fed those organs with its life giving stream, and that to arrest the disease at its very seat and centre, they should purify that vital fluid, and leave the rest to nature. This is the secret of *Dr. Holloway's* astonishing success in all parts of the world. He purifies the blood and health follows.

Let any sick person, who has "suffered many things of many physicians," and obtained no benefit, give heed to these words of ours, and try Holloway's Pills, if he is internally afflicted, or Holloway's Ointment, if he is suffering from wounds or sores. He will thank us for our advice, and rejoice that the Professor has arrived in this country, and opened an extensive establishment in New York, which promises to rival his mammoth one in London.—*N. Y. Journal.*

The Delaware river is now navigable, after an embargo of ice since the first of January. About 150 vessels were on Sunday lying at Delaware breakwater, waiting for steam tugs to tow them up to the city. At Baltimore navigation was resumed on Sunday. New York harbor is also now free from ice.

To cure a disease, doctors treated it locally, topically.—Was it the kidneys that were deranged? Or the liver? Or the stomach? Or the lungs? Straitway they proceeded to prescribe for kidneys, liver, lungs, or stomach, not knowing that the evil was contained in the blood, which fed those organs with its life giving stream, and that to arrest the disease at its very seat and centre, they should purify that vital fluid, and leave the rest to nature. This is the secret of *Dr. Holloway's* astonishing success in all parts of the world. He purifies the blood and health follows.

Let any sick person, who has "suffered many things of many physicians," and obtained no benefit, give heed to these words of ours, and try Holloway's Pills, if he is internally afflicted, or Holloway's Ointment, if he is suffering from wounds or sores. He will thank us for our advice, and rejoice that the Professor has arrived in this country, and opened an extensive establishment in New York, which promises to rival his mammoth one in London.—*N. Y. Journal.*

The Delaware river is now navigable, after an embargo of ice since the first of January. About 150 vessels were on Sunday lying at Delaware breakwater, waiting for steam tugs to tow them up to the city. At Baltimore navigation was resumed on Sunday. New York harbor is also now free from ice.

The Rev. Asa Cummings, D. D., left in this steamer for New York on his way to Panama.

A Hard Article upon Hard Times.

The San Francisco Chronicle draws the following strong picture of the causes of "hard times" in California. We imagine the fighting department of our California contemporary is in a high state of efficiency.

We have hard times in the city—so most people say—and so many people feel. What has made these hard times? Has the gold in our placers, gulches, ravines, mountains, quartz veins, have made the hard times. Not the failure of our gold mines has made hard times, for they have not failed. Has our rich soil, richer and more prolific in the necessaries of life than any other on earth, brought hard times? Have the immense immigration, the unbounded commerce, the ships which come full, the wealthy climate, the great possible future which might be ours? None of these have brought hard times. What has? Thieves, robbers, cheats, swindlers, all professions, in all ranks, in all ages of the city. They have done it all.

What have they stolen? Everything stealable. They stole into office, and then stole what they were put there to guard. They stole outside of office as well as in office. They stole all the lands of the city. They sat as officers, and granted away the inheritance of the corporation to each other. They acted as private citizens, and "gobbled" up all the land which the officers had not stolen. They taxed the people, and then stole the taxes as fast as they came into the treasury. They loaned to themselves the city's funds to buy the city's lands, already stolen by as great scoundrels as themselves. They put the city up at auction, sold her, and pocketed the cash. When there was no more land to steal and no cash in the treasury to steal and to run away with, they formed a paper mint, coined out scrip by the million, and stole that. The contractors on the streets stole all they could. The contractors furnished the Government with necessaries; stationery, fuel, brandy and cigars, stole all they could. Those who built roads stole, those who ran away over the roads stole. They stole through ordinances, they stole through the courts. The Councils helped people steal, and themselves stole whatever they could quietly. They even stole the city's money with which to buy themselves gold medals in praise of their stealing. Thus they not only stole all the real estate of the corporation, her taxes, and her future receipts by issuing her scrip, but in doing all this they stole her good name, and left her poorer than Lazarus.

Did they stop there and then? No. When the city had nothing more for them to steal, they stole from each other, and have been doing so ever since. More than one half the law suits are nothing but theft under the form of law.—Half the lawyers of the city do things under a dodge and quibble of law which would disgrace Cherokee Bob to do inside the walls of the State Prison. Some—how many?—of our merchants who roll and wallow in wealth got their money by stealing? How many of them set up on a trifling capital, got consignments of goods, put them on storeships, and next day after a great fire returned accounts to their correspondents the consignors that the goods were "*Burnt, Unlearned*," and next day sold them and pocketed the money.

How many of our bankers stole the money of their confiding depositors? How many our moral gentlemen stole the wives of their neighbors and friends? How many women stole the affections—the last ratper—of their dear female friends' husbands? How many of various classes stole all they could of the capital brought here by our own countrymen, especially by foreigners, for investment? Oh, how they stole through quartz companies! Oh, how they stole through fraudulent mortgages, loans, trades! How they stole every way! *Gentlemen* stole—indeed he was not considered one unless he did. That is all the claim, a large portion have, to the title of gentlemen even to this day; they stole largely, did not get into the State Prison, and are honored.

Does any one wonder, then, that we have hard times in the city? Talk of hard times! Nothing but villainy has brought them upon the city. The heart of the people is rotten. Gold has turned to a devil and a king, and the crowd worship it. Perhaps the public won't thank us for these truths. It is all the same—we ask no thanks.

The non-arrival of the Pacific gives rise to general forebodings as to her fate. The last two years have been fearfully productive of calamity among Ocean Steamers. Twelve have been lost within twenty-six months. The "Winfield Scott," the "Yankee Blade," the "Tennessee," the "S. S. Lewis," the "Independence," have been stranded and broken up on the Pacific Coast. The "Humboldt," the "Franklin," the "City of Philadelphia," have been cast away on our own shores. The "North Caroline" has gone down in British waters. The "San Francisco," the "Arctic" and the "City of Glasgow," have gone down at sea.

Large Purchase of Shirts for Francis. On Saturday the purchase was made of the General Screw Steam Shipping Company, of the Jason, Indians, Golden Fleece, Calcutta, Argo, Queen of the South, Hydaspes, and Lady Jocelyn—amounting, we hear, to nearly £500,000. We believe this to be the largest purchase of shipping ever made in one line, and it has been effected by Mr. Graham, (of the firm of Maitland, Cuthbert & Co., of Paris,) Mr. Brett, (of the firm of Cunard, Brett & Austen, of London,) and M. Bernard Villars, (manager of the French Clipper Company.)—*Liverpool Post, Feb. 12.*

A countryman in Pittsburgh, the other day, received a lot of greasy bills in payment for his produce. He attempted to clean them, by using a solution of potash, which extracted the signatures. To make them as good as new, he re-wrote the names, and in an attempt to pass them, was arrested for counterfeiting. After considerable of a fright and an explanation of the circumstances, to his great relief he was set at liberty.

Macaulay's History.—The enormous sale in England of the new volumes of Macaulay's History of England has been exceeded by the sale in the United States. Messrs. Harper & Brothers, who paid the author £300 for early sheets, sold 72,000 volumes of their three different editions in the first ten days! The London publishers are said to have paid the author £16,000 for the volumes now published.

Ecclesiastical.—We understand that Rev. Dr. Dewey, formerly of New York city, has accepted an invitation to become the pastor of the New South Church, of which the late Rev. Dr. Young was the pastor for so many years. Rev. Mr. Bowen, who has been preaching there for some months past, is to be settled as colleague with Dr. Dewey.—*Traveller.*

AN INVALUABLE MEDICINE.

From the Hon. Solomon Foote, Member of Congress from Vermont.

St. Geo. R. Green—Dear Sir: In your note of the morning, you ask for an expression of my opinion in regard to your medicine, called Oxygenated Bitters." It affords me pleasure to state, that from the experience I have had, in curing a severe attack of Dyspepsia, in my own family, and from the wonderful effects which it has produced in others and many severe cases, arising in families of members of Congress, with whom I am acquainted, I think it an invaluable medicine, and hope that such circulation will be given to it as will bring it within the reach of ALL who are afflicted with that distressing malady. Respectfully yours, S. FOOTE.

Thirty Years Experience of an Old Nurse.

Hear the Brooklyn Daily Advertiser:

We cheerfully comply with the request of a friend to insert the following letter, which we are assured is from a lady of the first respectability, residing in Lowell, Mass., believing that a vast amount of suffering may be prevented, and many valuable lives saved, by calling the attention of mothers to this valuable prescription of an old and experienced nurse.

"Dear Sir:—I am happy to be able to certify to the efficiency of Mrs. Winslow's Soothing Syrup, and to the benefit it is represented to accomplish. Having a little boy suffering greatly from teething, who could not rest, and at night by his cries would not permit any of the family to do so, I procured a bottle of the Soothing Syrup, in order to test the remedy, and was blessed in the boy according to directions, its effect upon him was like magic; he soon went to sleep, and all pain and consequently disappeared. We have had no trouble with him since, and the first father will find them through with comfort the exhausting process of teething, by the use aid of Mrs. Winslow's Soothing Syrup. Every mother who regards the health and life of her children should possess it.

H. A. ALGER."

TELEGRAPHIC

TO THE DAILY WHIG AND COURIER

Congressional.

WASHINGTON, March 6th

Senate Mr Rusk introduced a bill for the construction of a railroad and telegraph line from a point on the Mississippi river, south of lat. 37 to the Pacific at San Francisco The bill grants about forty million acres of land, for which the company are to pay fifty cents an acre before obtaining a title, and are required to deposit five hundred thousand dollars as security that the work shall be faithfully performed According to the provisions of the bill, within eighteen months one hundred miles of the road must be completed—for the Government to pay six hundred per mile for conveying the mails until the road is finished and for ten years thereafter, and such reasonable sum as the Secretary of War may determine for carrying troops, munitions of war, &c. The road is to be forfeited within ten years, and all lands excepting those paid for to revert to the United States. The bill grants the right of way four hundred yds wide gives no exclusive privileges, but allows any company to construct roads when and where they please and obtain such favors from the Government as they can Referred to the committee on the Pacific Railroad

Mr Weller said the Committee would endeavor to report next week.

The Fortification bill was then considered.

The Senate passed the usual fortification bills

The bill providing for new fortifications was postponed.

Mr Sumner's resolution directing the Committee on Foreign Relations to consider the expediency of some act of legislation to effectually abrogate the treaty with Denmark, and repudiate the payment of the Sound dues, was then considered

The bill to be reported as to be concurred in by both Houses

Mr Sumner argued that the notice given by the President by direction of the Senate in Executive was for the termination of the treaty was de facto inasmuch as treaties are part of the supreme law of the land, and can only be abrogated by the action of both Houses of Congress, approved by the President

Messrs Seward, Fessenden, Columner, Crittenden and Stuart sustained Mr Sumner's views, and Messrs Mason Toucey, and Cass opposed them.

The resolution then passed, and the Senate adjourned to Monday

House The Speaker submitted a communication from the Court of Claims, enclosing bills thanking appropriations for the payment of certain private claims together with the evidence and the judgment of the Court in the several cases This is the first case of the kind originating with the Court creating that tribunal

A debate followed regarding the proper disposition of the bills, as a precedent is now to be established One side contended that they should be sent to the Committee on Claims, while the other argued that the action of the Court superseded the necessity of so doing Without coming to a conclusion the House passed the Military Academy and Invalid Pension bills.

The request of the Committee on Elections, for power to send for persons and papers in the Kansas contested election case was considered

Mr Boyce thought the effect of irrelevant matter in the minority report of the committee was calculated though perhaps unintentionally, to inflame still more the public mind on this agitating question The committee had given undue confidence to rumors He did not believe that taking testimony in Kansas by Commissioners would be attended by such sanguinary consequences as the committee apprehended The testimony could be taken among the people of the Territory who are at home attending to their business and have something else to do than running here on a crusade of evidence He contended that the act under which Whitfield was elected was legal The office of Delegate was created by the Kansas-Nebraska act, and whoever claimed it should show that he was elected under the organic act which is not the case with Mr Reeder, who was a citizen of he gave members of the Legislature cert Seaton of election when he did not believe them entitled to seats He had better retreated to the forest of, Fort Leavenworth than fancied a position

Mr Bingham said the committee in asking for power to send for persons, desired only to elicit the truth which can work no ruin. This, he demanded by the interests of the nation and the sacredness of law, which has been violated It is maintained in the report of the minority that this power is not within the discretion of the House, The only question is whether sufficient cause is apparent to authorise such investigation It is evident from the memorial that either Whitfield or Reeder claims the seat in violation of law The simplest and most credulous man in the House cannot believe it was legal to hold two elections within the same month, or that the legal voters would go through the farce of voting for Mr Reeder if they had already voted for Mr Whitfield. It strikes him that in one of the elections the order was wantonly trampled on and disgraced and if this is true it concerns all the people in the land to know it.

The question is Have the people of Kansas chosen Whitfield or have they been interfered with by invading armies and is Mr. Whitfield here in violation of the law and by the acts of lawless invaders

Mr Bingham proceeded to make out the probable case by reading from various documents and papers, showing the usurpers assuming to be the Legislature of Kansas had violated the organic act of the Territory He severely criticised their acts in support of slavery which supposed he said, was against the utterance of sentiments favorable to freedom, and in other respects violated the federal constitution. Adjourned.

Annexation of the Mosquito Territory to be opposed by the British.

NEW YORK, March 6

The fireman was severely hurt and the mail agent was thrown from the window of the car, but escaped with slight injuries None of the passengers were injured.—The engine was rendered a complete wreck, and the passenger cars were forced up an embankment and considerably shattered. The wreck on the track prevents the passage of trains, but passengers are sent through by changing cars.

Cheap & Convenient Building.

Door, Sash and Blind Factory.

A. DUNBAR

HAS been very successful in completing several contracts for Door Frames, Doors, Window Frames and Sashes, and Blinds for good dwelling houses and other buildings to be erected in this city, the coming season He has excellent workmen in his employ, and has superior stock, so that he is now able to supply to those about to build the best articles of Door Frames, Window Frames, Sashes and Blinds, made to any dimensions and of superior quality either for a whole building or for a less quantity The trouble and expense of building is very much lessened by having these articles made separately so that the carpenters have only to put them in their place in the structure.

This business had now become so well systemized that only a small margin is left in knowing beforehand the cost of a dwelling-house, while the work is of a uniform excellent quality

Any one interested can examine specimens of the work at the factory, near the Rose Place, or at the store of M S. Jackson, on Exchange st, and at either place any article may be obtained or large quantities ordered

Mr. Dunbar is also prepared to furnish Window Blinds ready painted, and will hang them at the shortest notice.

By long experience, and by determined perseverance, the subscriber is now enabled to suit his customers, both in quality and price, and so well organized is the business that no man should now think of building in the old and slow and imperfect method

TESTIMONY FROM MAINE.

Capt Daniel Abbott, Brooklin, Maine, July 16 1853, says "I was taken sick one year ago last April upon my passage from Havana to Charleston S C At the latter place I took medicine and procured a physician, but for ten days could obtain no relief, no sleep or appetite At last tak... my leave of Charleston having your advertisement of Hoofland's German Bitters in it, I sent for some immediately This was about 10 o clock, at 11 o clock I took the first dose, and another at 6 o clock The effect was so rapid on me that I had a good appetite for supper and rested well that night and the next day found me well man—I have not been without your medicine since, being been sailing between Baltimore, Charleston, and the West Indian Islands ever since I have now given up going to sea and reside in this place where you should have an agency, as you could sell large quantities of it.

Jos B Hall & Co Presque Isle Aroostook Co, Maine, April 24, 1854, say "We herewith send you a certificate of a cure performed by the use of *only one bottle* of the German Bitters Mr Clark to be a man of veracity, and have no doubt of the truth of his story

Messrs. Jos B Hall & Co—Gentlemen—In answer to your inquiries I will state, that my daughter, aged about 16 years, has been complaining of a pain in her side for six or seven years, and about the first of January last was taken down and confined to her bed The pain in her side was very severe, besides being troubled with pains between her shoulders and in her breast. From reading a number of cures performed by "Hoofland's German Bitters, I was induced to try them in her case, and sent to your store and purchased *one bottle* She had taken it but a few days when she began to improve and now, after taking *only one bottle*, she is enjoying better health than she has for years—She feels no pain in her side or in any part of her body, and attributes her cure *entirely* to the German Bitters
